FRAUNHOFER RESEARCH INSTITUTION FOR
CASTING, COMPOSITE AND PROCESSING TECHNOLOGY IGCV

29.11.2017: Shanghai, Covestro
Shanghai Polymer R&D Center
33, Qin Qiao Road, Technological Development
Zone Pudong, Shanghai 201206

01.12.2017: Jeonju, KCTECH
International Carbon R&D Center
111, Biseongnal-ro, Deokjin-gu, Jeonju
Korea, 54852

04.12.2017: Bangkok, TISTR
Grand Centre Point Terminal 21 Hotel
2 Sukhumvit Soi 19 (Wattana), Sukhumvit Road,
Klongtoey Nua, Wattana, Bangkok 10110, Thailand

For Registration in Shanghai please contact:

Dr. Ruqi Chen 陈如其
Covestro Polymers (China) Co., Ltd
Phone: +86 18317143198
Mail: ruqi.chen@covestro.com

For Registration in Jeonju please contact:

Ki, Woong
Korea Institute of Carbon Convergence
Technology - KCTECH
Phone: +82-63-219-3731
Mail: ki6905@kctech.re.kr

For Registration in Bangkok please contact:

Dr. Parawee Pumwongpitak
Thailand Institute of Scientific and Technological
Research (TISTR)
Phone: +66-2577-9428
Mail: parawee@tistr.or.th

ReHCarbo

Travelling Conferences

ReHCarbo is a technical and networking conference with focus on the topic **resource efficient manufacturing of CFRP structures**. The Conference comprises three individual one-day events taking place in China, South Korea and Thailand.

Who is invited?

Anyone who is involved or interested in manufacturing of CFRP structures, no matter if production in high series or new applications. This includes industry representatives, researchers and decision-makers in economy, news or politics.

What do we offer?

Several technical lectures presented by the German experts with the aim of promoting scientific exchange and prospecting future research collaboration. Our aim is to identify different possibilities for international cooperations and technology transfer, for pushing boundaries of resource efficient CFRP production processes.

Program

- 09:30 Opening
- 09:45 Keynote: Resource efficient manufacturing of CFRP structures
R. Bezerra
- 10:10 Closed injection pultrusion
F. Wilhelm
- 10:30 Technical presentation by
Dieffenbacher
- 11:00 Coffee break
- 11:30 Complex hollow structures by
pultrusion and bladder molding
S. Strauß
- 11:55 Technical presentation by
Covestro AG
- 12:20 Technical presentation by
BMW AG
- 12:45 Lunch Break
- 14:00 Composite processing technology
for the automotive industry
H. Engelen
- 14:25 Technical presentation by
KraussMaffei Technologies GmbH
- 14:50 Technical presentation by
Hosting Institution
- 15:15 Conclusion and end of
presentations
R. Bezerra
- 15:30 B2B-Talks

04.12.2017: Conference Day – Bangkok @ TISTR
